

Native Tree Pick-Up Instructions: The New Castle Conservation District is located at 2430 Old County Rd, Newark, DE 19702. Please enter from Old County Rd and stay inside your vehicle to form a line in front of the building. Upon pulling up to the “Tree Pickup” location, you will be able to specify to our volunteers the tree - and pot size- you would like. We kindly ask that folks come prepared with two to three options in the event that we don’t have your first choice. A volunteer will then grab your tree and hand it off for you to load into your own vehicle. Once you have your tree, you will drive around the outside loop of the parking lot before exiting back out to Old County Rd.
